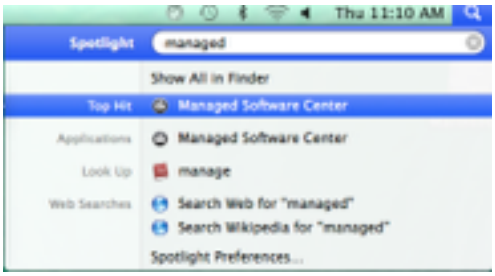
Technology

Supporting multiple learning modalities for using technology and distance learning as a tool in your classroom, school, district and life.

TECH Byte: MANAGED SOFTWARE CENTER

The Managed Software Center will install all current Apple Software Updates and any optional installs that you select to install on the computer. In order to select and install the software, please follow the steps bellow:

1. Search for Managed Software Center



2. The Center opens up and you can select what software to download.

3. After you select the software you want to install, click on Updates in the top right.
